## WEEKLY STAFF NEWSLETTER: APRIL 11-15, 2016

### CURRICULUM

Thank you to all of the grade levels that have participated in this Professional Development session. Some of you have asked Chase Orton for additional resources to continue to support your math experience with him. Below are two links, personally recommended by him:

1. <https://www.illustrativemathematics.org/progressions>
2. <http://gfletchy.com/category/math-progressions/>

### PBIS

Valerie represented Gabilan and showcased our PBIS implementation at the district PBIS training this past week. She did a great job displaying the PBIS components we have consistently implemented this year. Our next PBIS showcase will be through MCOE in May. At this next showcase, we will incorporate videos of our students reciting the SOAR expectations. Please let Valerie know what time of the day your class recites these so that she can come around and incorporate your class into the display.

### FIELD TRIPS

If you have not planned your grade level field trip, please make sure to do so as soon as possible. ASB funds should not be "saved" and need to be spent by the students that earned those funds. Check with Erica if you have a question regarding the amount of funds your grade level has to arrange a field trip.

### STUDENT BEHAVIOR

As the Spring season begins to unfold, some unexpected student behaviors may start to arise. Be proactive and continue to have your students recite the SOAR expectations on a daily basis. Make sure students know that the behaviors on the matrix are expected at all times. This will minimize any confusion regarding student behavior. Next week, our PBIS lesson will focus on lining up in an orderly fashion. We have been having some students trying to out run each other to the front of the line, resulting in students getting pushed and hurt.

### STUDENT ASSEMBLIES

We will be having a *Recycle Rama* assembly on Tuesday, April 12 in the afternoons. These are short, 30 minute assemblies, focusing on the importance of recycling. Please be on time so that all assemblies can start and end on time.
